HSE Coordinator, SIMOPS & Drilling, Sénior

EXPERIENCES PROFESSIONNELLES

févr. 2020 /

HSE Coordinator, SIMOPS & Drilling

Eni Congo SA

Eni - a company producing oil, gas and LNG, operating in the Upstream sector within refining, marketing and

Chemicals, and through its Versalis company engaged in developing green chemistry.

** Highly proficient at assisting the Service Head to manage onshore and offshore simultaneous operations*

including drilling, work over, completion and construction.

** Initiating operational meetings with all partners and sub-contractors; participating in HAZID and HAZOP*

prior to starting equipment.

** Oversight for HSE coordination, controlling action plans and drills schedules for different sites as well as*

performing investigations after HSE events.

** Recommended emergency power supplies for rigs to provide gas alert and detection back-up systems to*

prevent hazardous situations; UPS currently being installed.

** Presented a report to Head of Service highlighting an absent safety vent line on the diesel tank that*

instigated an installation campaign covering all sites; recommended a maintenance schedule resulting in

zero equipment failures or incidents.

** Developed and implemented bridging documents in collaboration with the contractors, significantly*

contributing to a reduction in LTIs.

** Established a report for stakeholders on unsafe conditions related to H2S and LEL gas sensors leading to*

a layout review to maintain safety.

août 2017 / févr. 2020

HSE SOA Supervisor

Eni Congo SA

Responsible for HSE procedures on rig and work over operations, delivering data to SOA during SIMOPS processes.

** Carried out job analysis assessments and implementations to reduce risks as is requested in Eni Congo*

HSE procedures and ensuring their application.

** Ensuring the functionality of all security systems and equipment, controlling work permits and inducting*

personnel on HSE issues.

HSE SOA Supervisor | Eni Congo SA continued /

** Participated in daily SOA mandated SIMOPS coordination meetings, supporting managers and other HSE*

resources for SIMOPS provisions compliance.

** Completing internal HSE audits and site inspections, providing a high standard of support on site for*

active and passive operations.

** Demonstrated analytical skills when protecting personnel during on-site emergencies by investigating*

issues and recommending solutions.

** Additionally seconded to the RIGLESS program based at the onshore Mboundi oil rig Wilson Mogul from*

Jul to Oct 2018.

* Based on Mboundi oil rig Wilson Mogul up to Jan 2018, providing job analysis assessments to minimise rig and work over operation risks.

juin 2016 / août 2017	HSE Supervisor Eni Congo SA (Dietsmann) <i>Assigned based on performance to the high profile, mission critical Revamping Fireproof System project.</i> <i>* Reported to the site HSE Superintendent, managed co-activity and POB, rolled out safety measures, and supervised operations identified as dangerous.</i> <i>* Inspected and controlled lifting gear and critical safety equipment such as extinguishers, fireproof line, PAGA, PSH, and PSL system.</i>
juin 2014 / juin 2016	HSE Responsible Person AXOM SA <i>Covering metallic construction: pipe works and general petroleum industry maintenance for Eni Congo business.</i> <i>* Obtained buy-in from the Country Manager and CEO on the financial, legal and competitive advantage of implementing a Health & Safety Management system to create a strong HSE culture and sign many contracts with major clients.</i> <i>* Prepared key HSE audits, supervising work and dangerous operations on site, planning and conducting safety drills, and providing staff training.</i>
févr. 2014 / juin 2014	HSE Supervisor Eni Congo SA (Cauric Associes), Offshore Zatchi Field
janv. 2011 / mai 2012	HSE Supervisor TOTAL E&P Congo (Friedlander)
janv. 2009 / janv. 2011	HSE Officer Saipem, Onshore Rig 1095 Mboundi
