### COMPETENCES

My knowledge in the shipping business and ISM synthesis combined with 15 years on board ships and particularly tanker ship give me thorough competencies in ship's management. They cover both responsibility as a top manager and understanding of stakeholder's expectations.

Maintaining a ship in seaworthy condition according to flag, classification society or customer's requirement,  
crew and ship management,  
implementing and developing project in the shipping business.

## COMPETENCES LINGUISTIQUES
